SESSION DESCRIPTIONS

Microaggressions: Do You See What I See?

- Have you ever received an insult or felt slighted whether intentionally or unintentionally?
- During interprofessional collaboration, have you experienced subtle tones of hostility.
- Is your work environment toxic, filled with negative energy that sometimes causes feelings that could possibly affect patient care?

As a profession, many of us experience subtle undertones that leave us with negative feelings that feel our heads with negative energy, make us doubt our abilities, or make us feel isolated. In this session, we will examine these fundamental questions to help guide you in finding how to deal with microaggressions in your nursing career and academic environment.

Medical Mistrust

- How does medical mistrust affect health care outcomes?
- What is our role as clinicians and providers to prevent medical mistrust?

Medical mistrust is deeply rooted in our communities and contributes to huge disparities in health outcomes. In this session, we will explore the historical constructs related to Medical Mistrust, discuss how medical mistrust impacts healthcare outcomes and explore ways to combat medical mistrust to build trusting relationships with our patients. Nursing is the MOST trusted profession and sometimes in order to reach our healthcare goals, we have to address the patient's mistrust in the healthcare system
